· Jane Barratt, Secretary-General, International Federation on Ageing;

· Peggy Hicks, Director of Thematic Engagement at the Office of the High Commissioner for Human Rights;

· Michael Marmot, Director, Institute of Health Equity (UCL Department of Epidemiology and Public Health);

· John K. Shakpeh, Director of Nursing, Redemption Hospital in Monrovia, Liberia;

Video message: First Lady of Chile, Cecilia Morél Montes

Closing session: Masumi Ono, Chief, Social Inclusion and Participation Branch, United Nations Department of Economic and Social Affairs

The key messages were:

· Covid-19 is a wake-up call to action and must be leveraged to demand for the rights of older persons; the prevalence of ageism was noted.

· Major challenge is combating inequalities, which have been exposed and amplified by Covid-19.

· Government policies must take a life-course approach; an effective primary health care system is essential and long-term care reform must take a bold approach. Sustainable health equity must be promoted. Attention was drawn to the United Nations Decade of Healthy Ageing.

· Greater attention needs to be paid to social protection policies, mental health, social isolation, digital divide.

· Delivery of healthcare must be improved with more attention given to healthcare workers, training, wages; attention must also be given to unpaid care work.

· It must be recognized that older persons are not only recipients of social welfare and medical rehabilitation, but are also active contributors to their families, communities and to the national economy.
Older persons must have a choice in how they wish to age; they must be able to live in dignity.

Efforts must be intensified to advocate for a new international instrument to protect the rights of older persons.

Video of the event can be accessed on the NGO-COA-NY website: youtube.com/watch?v=R-u7vxl_fp4

NOTE: Video recording of the 1 October 2021 UNIDOP is on our website also.

1 October 2020

The NGO COA-NY co-sponsored a side event organized by the International Association of Gerontology and Geriatrics on the United Nations Decade of Healthy Ageing. Inequalities and disparities faced by older adults at the local, national and global levels were highlighted. Regional strategies for addressing national disasters, public health infrastructure and limited economic circumstances for older persons were discussed.

1 December 2020

The NGO CoA cosponsored a side event organized by the International Network for the Prevention of Elder Abuse during the 13th Session of the Conference of States Parties to the CRPD. It highlighted the intersection of disability and age. The disproportionate impact of COVID-19 pandemic on older persons and persons with disabilities, exacerbated by existing ageism, ableism, and shortcomings in support systems and residential care were also discussed.

3 December 2020

Topic: Breakthrough in COVID-19 Vaccines: The impact of vaccinations on older persons

Speaker: Jane Barratt, Secretary-General, International Federation on Ageing

It was noted that the Covid-19 pandemic exposed the inadequacy of health systems throughout the world. Ageism continued to be rampant, putting older persons at greater risk of discrimination, poverty and isolation. Misleading information and mixed messages have created a lack of confidence in vaccinations. It should be recognized that if people do not receive vaccinations, other underlying health conditions can be seriously impacted by Covid-19. Consideration should also be given to those who have lost loved ones and are traumatized by grief. The pandemic should be leveraged to fight for an international legal instrument to protect the rights of older persons.

7 December 2020

Topic: Collaboration on intersectional issues: conversation with NGO Committees in New York

Participants: Members of the Executive Committees of the following NGO Committees were invited:
The purpose of the meeting was to gain a better understanding of the goals and specific key issues of each Committee; to share strategy and tactics that can be used to ensure the inclusion of views from different segments of civil society; to determine how best to support each other, on the premise that backing from different groups would lend extra weight to recommendations for government action:

4 February 2021

Topic: Making the case for a convention on the human rights of older persons: What do we say and how do we say it?

Speakers: Bridget Sleap, Senior Rights Policy Adviser, HelpAge International; Laura Pares, Communications Adviser, HelpAge International

The speakers stressed the need to communicate effectively when advocating for the rights of older persons; how to present information; what to emphasize; avoiding a “us” versus “them” narrative – e.g. instead of “a world where older people live with dignity”, reframe it to focus on “a world where we live with dignity when we are older”.

14 February 2021

The NGO CoA cosponsored a side event organized by Waseda University, Japan during the Commission on Social Development. The theme was “Lessons Learned from the Usage of Digital Technologies for Healthy Ageing in the COVID-19.” Highlighted were the usages of digital technologies toward the achievement of Agenda 2030 in pursuit of the well being of older persons and how they can contribute to a new normal society. Also discussed were future prospects for the global digital silver society.
4 March 2021

Speakers:

- Melissa Grober-Morrow, Thought Leadership Director, Financial Resilience, AARP;
- Ben Bolton, Director, Global Partner Engagement, AARP;
- Susan Somers, INPEA, NGO Committee on Ageing-NY;
- Sandra Timmermann, IFA, NGO Committee on Ageing-NY;
- Frances Zainoeddin, Soroptimist International, NGO Committee on Ageing-NY.

The program drew attention to:

- Existing inequities exacerbated by the Covid-19 pandemic
- Majority of jobs lost due to Covid-19 were those held by women
- Older persons are most unlikely to be re-hired
- Healthcare system, where most jobs are held by women, need to be transformed to address low wages and lack of training
- Business must ensure a multi-generational workforce
- Digital literacy is essential
- Preparations for the 11th session of the Open-ended Working Group on Ageing, to be held 29 March – 1 April 2021, which had been postponed from 2020.

25 March 2021 – Pre-OEWGA workshop

In addition to being assigned, along with the NGO Committees on Ageing in Geneva and Vienna, and the Global Alliance for the Rights of Older Persons (GAROP), to participate in the selection of speakers during the OEWGA at its 11th session, the NGO COA-NY partnered with GAROP in the organization of a pre-OEWGA workshop for NGOs to discuss:

- Developments since OEWGA 10;
- Preparation of strategy for participation in OEWGA 11; and
- Preparation and coordination of joint statements, shared messages and collective action.
29 March – 1 April 2021 Open-ended Working Group on Ageing, 11th session

The 11th session of the Open-ended Working Group on Ageing, postponed from 2020, was held virtually, from 29 March to 1 April 2021, to consider:

a. Right to work and access to the labour market; and

b. Access to Justice

Substantive inputs, in the form of normative content for the development of a possible international standard on the protection of the rights of older people to “Education, Training, Life-long Learning and Capacity Building” and “Social Protection and Social Security (including social protection floors)” were also discussed.

The level of participation of Member States in the deliberations of the OEWGA was disappointing. National Human rights Institutions (NHRIs) and NGOs urged Member States to start drafting a convention to protect the rights of older persons. Argentina, at the session to discuss the way forward, proposed anintersessional subgroup to facilitate the OEWGA with its mandate.

It was decided that for the 12th session of the OEWGA the two focus areas for discussion would be: economic security, and contribution of older persons to sustainable development. For all documentation and other information: social.un.org/ageing-working-group/eleventhsession.shtml

30 March 2021

The NGO COA-NY co-sponsored a side event organized by the International Disability Alliance on “Access to justice at the intersection of disability and older age”.

6 May 2021

Topic: How can younger people and older people work together so no one (regardless of age) is left behind?

Speakers:

· Steve Lee, Organizing Partner of the Children and Youth Major Group;

· Nadine Clopton, Director, Global NGO Executive Committee and NGO Youth Representative to the United Nations;

· Jan Hively, Co-Founder and U.S.Liaison, The Pass It On Network.

The panelists discussed the need for intergenerational collaboration to address the pressing issues of the day; the importance of recognizing those who have spent years fighting for the human rights of all people. Meaningful discourse was essential in order to review what is working and what is not, in order to achieve transformative change by working together. It was agreed that ageism must be combatted and that a life-course approach must be taken by
governments when developing legislation, policies and programmes. Steve Lee indicated he will seek support from the Major Group for Children and Youth for a convention to protect the rights of older persons.

3 June 2021 Annual General Meeting

- Annual General Meeting, for election of members of the Executive Committee
- Reporting on the work of the Subcommittees

  1. World Elder Abuse Awareness Day (WEAAD), 15 June
  2. the High Level Political Forum (6-15 July)
  3. International Day of Older Persons (1 October)
  4. Social Media – Twitter tutorial, presented by Anna Stauber, Project Consultant and Rami Abu Rafea, Intern

15 June 2021, World Elder Abuse Awareness Day (WEAAD)

The NGO COA-NY co-sponsored the event which was organized by the International Network for the Prevention of Elder Abuse (INPEA)

Speakers:

- Susan Somers, President of INPEA;
- H.E. Mr. Federico Villegas, Permanent Representative of Argentina to the United Nations in Geneva;
- H.E. Mr. Enrique Austria Manalo, Permanent Representative of the Philippines to the United Nations, New York;
- Claudia Mahler, Independent Expert on the enjoyment of all human rights by older persons;
- Maria Soledad Cisterna Reyes, Special Envoy of the United Nations on Disability and Accessibility;
- Etienne Krug, Director of the Department of Social Determinants of Health, WHO;
- Tlaleng Mofokeng, Special Rapporteur on the right of everyone to the enjoyment of the highest attainable standard of physical and mental health;
- Natasa Todorovic, Health and Care Program Manager, Red Cross of Serbia and INPEA Europe;
The panelists noted that older persons who have experienced situations of violence, abuse and neglect face multiple barriers in accessing judicial remedies, such as issues of accessibility, affordability, excessive delays and backlogs in judicial processes, impact of digitalization, gender bias, discrimination, and entrenched ageism in policy, norms and practices. It was pointed out that access to justice is a fundamental right in itself and an essential prerequisite for the protection and promotion of all human rights.

6-15 July 2021 – High Level Political Forum

The NGO COA-NY, as a member of the Stakeholder Group on Ageing (SGA), which in turn is a member of the 22 Major Groups and Other Stakeholders, to facilitate the participation of civil society in deliberations on the follow-up and review of the sustainable development goals, contributed to the drafting of the annual SGA position paper.

The NGO COA-NY also took the lead in organizing the SGA’s annual side event “Covid-19 pandemic: a stress test of global ageing”

Speakers:

- Erica Dhar, Co-Chair, Stakeholder Group on Ageing
- Jane Barratt, Secretary-General, International Federation on Ageing (Moderator)
- Andrew Scott, Professor of Economics, London Business School
- H.E. Ms. Barbro Westerholm, Member of Parliament, Sweden

- Steve S. J. Lee, Organizing Partner, Major Group for Children and Youth
- Amal Abou Rafeh, Chief, Programme on Ageing Unit, United Nations Department of Economic and Social Affairs.

The panelists noted that older persons have been among the first and hardest hit by the Covid-19 pandemic; only a whole-of-society, whole-of-government approach can respond effectively to the dynamic challenges during this period of time. The panelists discussed health and long-term care, economic development and work and technology in an ageist environment during the pandemic.

Leadership of the Committee:

In June 2020, the NYNGOC Executive Committee adopted a resolution to postpone the Annual General Meeting and elections until October 2020 due to disruptions resulting from the COVID-19 pandemic. The NYNGOC held elections of its Executive Committee in October 2020 at its Annual General Meeting.

In May 2021, members of the NYNGOC unanimously ratified a resolution returning to non-staggered terms for the Executive Committee of the NYNGOC, reflecting a consensus that the conditions that prompted the change to a staggered board are no longer present, annual elections are unduly cumbersome, and it is in the best interest of the Committee to return to non-staggered terms. As a result, elections of the full Executive Committee will take place every two years, with the next election in June 2022, and Executive Committee members’ terms which would have expired in June 2021 have been extended by one year.

Tania Ramírez of México Unido Contra la Delincuencia stepped down as Secretary in April 2021 and the Executive Committee subsequently selected Beatrix Vas of International Drug Policy Consortium and Youth RISE to fill the position.
The current Executive Committee members are as follows:

Since its formation in 1984, the NYNGOC has provided a platform for discussion of drugs and related matters and served as an interface with the UN for collaborating on solutions to global drug issues.

Membership of the Committee:
As of October 2021, the NYNGOC has 102 members from 30 countries and all UN regions.

**Amount of Annual Membership Fee:**

The NYNGOC collects a membership fee of 20 USD from members. The fee is waived for members from low-income countries (as defined by the World Bank), organizations that are run by key populations (“peer run” organizations), and members that can demonstrate financial hardship.

**Activities of the Committee:**

Although the COVID-19 pandemic and its accompanying lockdowns presented challenges for the NYNGOC for much of 2020, resulting in the postponement of its Annual General Meeting and elections from June to October, the Committee continued to stay active.

On the margins of the 63rd session of the Commission on Narcotic Drugs (CND) in March 2020, the NYNGOC held a formal members’ meeting. During this meeting, members continued an ongoing discussion on whether the NGO committee structure, historically comprised of the NYNGOC and Vienna NGO Committee on Drugs (VNGOC), should be examined and potentially modernized to become more global in its representation and leadership. While it has emerged that there is no desire to vastly alter the NYNGOC or VNGOC (by merger or otherwise) to create a more global system, this does not resolve the issue that the NGO committee system focused on drugs is generally always ultimately governed from the global north due to the physical location of the UN hubs. Although the memberships of both committees are made up of organizations from all over the world, there is concern that limiting overall governance in this way simply does
not reflect the global nature of drug policy. Moreover, 2020 saw major changes to UN working methods due to the COVID-19 pandemic including an increased reliance on and success of virtual platforms for convenings, meetings, and negotiations.

Against this backdrop, one of the approaches that has garnered enthusiasm with our membership has been the idea of the NYNGOC helping to facilitate the formation of independent regional committees. Regional committees could enable NGOs located outside the main UN hub cities to share in the governance of the overall system, effectively decentralizing its leadership. Regional committees could also provide a mechanism to engage with regional intergovernmental bodies both within and outside of the UN system – which the current system is sorely lacking. These regional committees would be independent from the NYNGOC, and therefore self-governing. This envisaged system is in line with amended Rules of the CoNGO that now allow the formation of regional committees. Moreover, it is consistent with more modern approaches, such as the NGO Major Group, which features a more global governing model, and the systems in place in other issue areas, such as NGO Committee on the Status of Women (NGO-CSW), which is supported by a group of four independent regional committees (in addition to those located in New York, Geneva, and Vienna).

The NYNGOC announced the election of four members to its Executive Committee at its Annual General Meeting in October 2020. The Committee entered a new era of leadership with the election of Nazlee Maghsoudi as Chair. Heather Haase stepped down as Chair after three consecutive terms yet remained a Member-at-Large. Ernesto Cortés was re-elected as Vice Chair and Martha Inés Miravete Cicero joined as a Member-at-Large. The NYNGOC saw an opportunity to update our working methods given changes due to the COVID-19 pandemic and increased use of virtual platforms. For the first time, the Executive Committee sought candidates for NYNGOC leadership – particularly the Chair and Vice Chair – for the 2020 elections who were not based in New York. This reflects our efforts to address the issue that the NGO committee system focused on drugs is generally always ultimately governed from the global north due to the physical location of the UN hubs. Although the NYNGOC membership has always been international, a more global governance model will allow leadership to be shared with our partners located outside UN hubs including our Chair from Canada and Vice-Chair from Costa Rica.

A social for members of the NYNGOC was held in December 2020 to reflect on the history of the NYNGOC, congratulate new Executive Committee members, and discuss priorities for the forthcoming year. Given the COVID-19 pandemic, a priority for the NYNGOC was to support civil society engagement at the 64th session of the CND in 2021 by advocating for equivalency in civil society access and participation between the usual in-person session and the online format.

At the 64th Session of the CND in April 2021, Jamie Bridge, Chair of the VNGOC, delivered a joint NYNGOC/VNGOC statement under agenda item 10 highlighting the ways in which virtual formats could continue to be used to increase participation and accessibility. The following concrete asks were made:

• Continue to webcast all plenary sessions in the official languages,
• Continue to allow virtual side events alongside physical or hybrid ones,
• Continue to facilitate and welcome virtual statements and interventions, and
• Record all sessions to allow for better participation across different time zones.

As in years past, the NYNGOC issued a press release to commemorate World Drug Day and Support Don’t Punish in June 2021.

**Partnering Organizations and UN Agencies:**

The NYNGOC collaborates frequently with our sister committee, the VNGOC. Perhaps most well-known is our joint formation of the Civil Society Task Force that facilitated global NGO participation at the UN General Assembly Special Session on the World Drug Problem (UNGASS on Drugs) in 2016 and the Ministerial Segment of the 62nd Session of the CND in 2019.

We regularly work with the VNGOC to hold open calls and select civil society experts and speakers for consultations and meetings held by the UN Office on Drugs and Crime (UNODC), including the recent engagement opportunities below:

• Expert Meeting on Drug Use in Humanitarian Settings,

• Expert Consultations on Treatment and Care for People with Drug Use Disorders in Contact with the Criminal Justice System,

• Expert Consultations on the Role of Law Enforcement in Drug Prevention in School Settings,

• Expert Group Meeting on the Use of Public Private Partnerships to Reduce Drug Demand, and

• Expert Working Group on Treatment of Mental Health Including Drug Use Disorders in Prison Settings.

At the NYNGOC’s Quarterly Meeting in May 2021, members were joined by Delphine Schantz, the new Head at UNODC New York Liaison Office, for a meet and greet. Ninan Varughese, Senior Advisor at UNAIDS, also attended and provided an update on the High-level Meeting (HLM) on HIV and AIDS.

The NYNGOC worked with the UNODC New York Liaison Office to ensure civil society participation at the New York virtual launch event of the 2021 World Drug Report in June 2021. At the request of the UNODC New York Liaison Office, the NYNGOC held an open call for three civil society speakers to make two-minute interventions from the floor. Speakers were selected by the Executive Committee of the NYNGOC based on the relevance and quality of the description of their intervention, as well as considering gender and geographic balance.

Despite our track record of engagement, the NYNGOC still faces a longstanding pattern of exclusion by the UNODC – based in Vienna – and ongoing challenges in being recognized by them and held in equivalent standing to the VNGOC. As reported in our previous annual reports and raised at prior board meetings of the CoNGO, we have heard repeatedly from the UNODC that they “only recognize one drugs committee,” and that is the VNGOC. The UNODC has a Memorandum of Understanding with the VNGOC yet does not list the NYNGOC as one of their main civil society partners on their website. Such a position stands in stark contrast to the
system-wide relevance of the drugs issue, as illustrated by the existence of the UNODC New York office, as well as the many ways in which the NYNGOC has partnered and collaborated with the UNODC throughout the years. The NYNGOC Executive Committee is engaged in continued discussions to determine the best approach to this situation and is proactively working to improve its relationship with the UNODC.

In October 2021, Nazlee Maghsoudi, Chair of the NYNGOC, participated in the CoNGO Civil Society Summit on Substantive Issues and acted as rapporteur for thematic panel three, titled, “Peace and Threats to Security of People and the Planet.”

**Greatest Achievement:**

Preparations for the 2016 UNGASS on Drugs ushered in a period of collaboration between the NYNGOC and VNGOC, with the two committees partnering to form the Civil Society Task Force (CSTF). The CSTF was a global 33-member task force of NGOs representing nine global regions and nine affected populations/global voices.

After the CSTF finalized its activities around the 2016 UNGASS on Drugs, the CSTF conducted a global survey to gather information on the impressions amongst civil society on the effectiveness of the CSTF and potential next steps. Since the survey showed strong support for the CSTF and the desire to continue it in some form, the two committees entered a Memorandum of Understanding and spent several months collaborating to form a new CSTF for the 2019 Ministerial Segment. The new CSTF was formed with three additional Steering Group members (adding officers in charge of communications, fundraising, and outreach), 18 representatives of global regions, and 10 representatives from affected populations and global voices.

The CSTF was an effective vehicle for increasing the inclusion of civil society voices at preparations leading up to and at the 2016 UNGASS on Drugs, as well as at the 2019 Ministerial Segment. Activities of the CSTF included:

- Identifying civil society speakers for preparatory events and at the meetings themselves in accordance with the CSTF Guidelines for Selecting Speakers, which emphasize parity in representation of women and across regions,

- Conducting consultations with civil society, such as through online surveys and civil society hearings held in New York and Vienna, and

- Publishing reports presenting the findings of consultations by the CSTF.

The CSTF successfully delivered this range of actions in both 2016 and 2019. It remains a useful example of cross-committee collaboration to support inclusive civil society participation at high-level UN meetings.

**Committee Statements:**

Ernesto Cortés, Vice Chair of the NYNGOC, made an intervention at the UNODC New York Liaison Office Presentation of the 2020 World Drug Report in June 2020. He discussed some of the positive responses to the COVID-19 pandemic in the field of drugs and drug policy, while sharing calls for decriminalization and decarceration, including from the UN system common
position on supporting the implementation of the international drug control policy through effective inter-agency collaboration.

Heather Haase, former Chair of the NYNGOC, made an intervention at the UNODC New York Liaison Office and Mission of Austria Briefing on the Work of the CND in October 2020. She shared some of the past and current work of the NYNGOC, including in partnership with the VNGOC, and reflected upon the possibility of regional committees and other ways virtual formats could be used to enhance civil society participation.

The NYNGOC participated in the 65th Session of the Commission on the Status of Women in April 2021 by making an intervention at a parallel event hosted by Dianova International. Nazlee Maghsoudi, Chair of the NYNGOC, spoke about the NYNGOC's working methods, opportunities and challenges related to civil society access and participation at the UN, recent developments related to gender in international drug policy, and the need for system-wide coherence on drugs and drug policy.

Ms. Maghsoudi made an intervention at the UNODC New York Liaison Office Presentation of the 2021 World Drug Report in June 2021. She focused on how sharing and acting upon information from diverse UN entities could enhance system-wide coherence between drug control and the UN pillars of peace and security, development, and human rights, as well as the Sustainable Development Agenda.

Ms. Maghsoudi also made an intervention at the UNODC New York Liaison Office and Mission of Austria Briefing on the Work of the CND and the Commission on Crime Prevention and Criminal Justice in October 2021. She highlighted how virtual formats could continue to be used to increase participation and accessibility at the next session of the CND, drawing on recommendations from the joint statement with the VNGOC at the prior session of the CND, and further suggesting that broadcasting sessions and archiving those videos via UN Web TV would be ideal. Against the backdrop of the Third Committee’s negotiations of the annual drugs omnibus resolution, Ms. Maghsoudi also took stock of recent developments relevant to drugs and drug policy across the UN, including the Human Rights Council Resolution 47/21 on systemic racism, UN system common position on incarceration, Working Group on Arbitrary Detention’s study on drug policies, and Political Declaration on HIV and AIDS.

Aims and objectives of the Committee:

The purpose of the NGO Committee on Human Rights is to encourage the promotion and protection of human rights and fundamental freedoms in accordance with the United Nations Charter. This is accomplished by a. encouraging UN bodies and agencies to include human rights frameworks in their planning and social policy considerations, b. acting as a forum which receives and shares information on human rights norms and standards, and c. cooperating with the UN departments, bodies, organizations and agencies to raise public awareness in order to promote, protect and defend human rights.

5. Our Goal of World Community: The UN at 75. October 22, 2020 (virtual)

Concept: Against this year's challenges, women and girls of African descent have magnificently persevered, despite constant threats to their human rights. This event seeks to affirm their acts of resistance and strength amid adversity and celebrate Black women and girls globally. Through Audre Lorde's acclaimed concept of radical self-care, we look at the significance of claiming joy within this community and healthy spiritual well being for resilience-building and healing during this time. The NGO Committee on Human Rights was a co-sponsor along with Cooperative Baptist Fellowship, 2021 Samuel DeWitt Proctor Conference, Black Lives of Unitarian Universalism, NYU Silver Graduate Student Association, and Justice for all.

NGO Committee on Human Rights during 2021 (there were more events that followed this event)

1. NGO Committee on Human Rights "Upholding and Undermining White Supremacy -how contemporary religious identity does both." Speakers: Robert Jones, author of "White Too Long; The Legacy of White Supremacy in American Christianity" and Alan H. Green, Broadway Actor, Anti-Racism activist, and Baptist Deacon. January 14, 2021 (virtual)

Concept: Robert Jones has recently published a well evidenced demonstration that White Supremacy and White Christianity share not only common roots but also contemporary synergies. This is counter-intuitive to many people of faith who share a conviction that faith (their religion) is anti-racist. This event highlighted and explored this commonplace misunderstanding and provided points of light, where religion plays a positive role in dismantling racism and upholding the dignity of all humans

Mr. Edward Ryan, *former AARP Representative to the UN*, “Grandparents in Action”

Ms. Jennifer Wright, *Student, New York University*, Intergenerational Learning through Technology

**Activities Co-sponsored or Co-organized:**

SPONSORS: The Permanent Mission of Argentina to the United Nations; NGO Committee on Intergenerational Solidarity; and Generations United

Co-sponsors: NGO Committee on Ageing; and NGO Committee on the Family
The symposium sought to address the following Sustainable Development Goals:

GOAL 1: No Poverty; GOAL 2: Zero Hunger; GOAL 3: Good Health and Well-being; and GOAL 10: Reduced Inequality by elucidating the social and economic aspects of social security systems and reviewing their profound impacts in ameliorating poverty and helping to achieve these goals in countries where they have been implemented. It is also important to note that social security programmes can contribute to social integration within societies as a result of their inherently intergenerational structures and policies. For example, poverty rates are highest globally amongst older persons and children – the two primary demographics addressed by social security. The positive impact of social security programmes on economic growth within a country has not been recognized until more recent years, e.g., the UN 2018 “Report on the World Social Situation.” This point is an important one for countries seeking to grow their economies since social protection programmes may be incorrectly viewed as a drag on the economy.

This symposium was moderated by Rosa Perla Resnick, Ph.D., Chair, Transitional Leadership, NGO Committee on Intergenerational Solidarity.

Speakers included: Alejandro Guillermo Verdier, Deputy Permanent Representative of the Argentine Republic to the United Nations, who noted that economic policies are not enough to generate profound and long-term change if they do not consider “inclusion” as an essential component. In this sense, it is crucial to conceive social development as a process of transformation, which guarantees the full realization of the economic, political, social, civil and cultural rights of all people.

Susanne Bleiberg Seperson, Ph.D., United Nations Representative, Generations United, spoke about important social aspects of a social security system, such as shared values and commitments across generations, which should be built into social security programmes to improve social integration and inclusion, going beyond economic benefits alone. For example, enhanced pensions in return for volunteering with sectors of society which have unmet needs, revisions to the tax code, and job-sharing are other strategies to be considered.

Kevin Brabazon, United Nations Representative, Generations United and Associate Professor, Stern School of Business, New York University, addressed economic aspects of social security. He recommended the model of mandated savings developed in Chile by Jose Pinera be used since it is sustainable and is unaffected by demographic changes, such as population ageing; adding a Value Added Tax and a small payroll tax to include those who would otherwise be left out of the system; and asking workers to invest a percentage of their pension savings domestically to help ensure sustainability of economic growth.

UN Entities the Committee Consults & Involves in its Work

The Permanent Mission of Argentina to the United Nations; Generations United, NGO Committee on Ageing; NGO Committee on the Family
Greatest Achievement:

The fact that the Committee on Intergenerational Solidarity established March 3, 2018 in Geneva was able to elect officers, hold an inaugural meeting, co-sponsor a symposium, and numerous Board meetings, and remains in existence as a new NGO Committee with great ambitions despite the extreme limitations and stress brought on by the COVID pandemic. Specifically, members of the Board and supporters integral to its founding were faced with unexpected illness, grave family matters and loss; bureaucratic, financial and technological difficulties. COIGENS looks forward to being able to advance the mission of the Committee.

A Report to the CoNGO General Assembly on Initial Activity of the Committee

Co-coordinators: Humphrey Tonkin & Francis M. Hult

The NGO Committee on Language and Languages was first proposed some three years ago and finally constituted in a virtual meeting on Thursday, September 9. The organizations listed below were registered as founding members.

Assisted by the First Vice President of CoNGO, Cyril Ritchie, the CoNGO President, Levi Bautista, explained the duties, obligations, and opportunities associated with CoNGO’s Substantive NGO Committees. Ten of the CoNGO Rules relate directly to these committees: see http://ngocongo.org/ngo-committees/substantive-committees. A small working group was set up to review the draft by-laws and plan the initial activities of the committee. It seemed likely that the Committee would begin work virtually and perhaps at a later date shift to a combination of virtual and in-person meetings. Given that this is the only NGO Committee to take as its charge issues of language at the UN, it seemed sensible to include NGOs in all parts of the world, and particularly those active in Geneva and Vienna as well as New York.

The draft by-laws of the committee emphasize the general area of activity to be undertaken:
Multilingualism is a founding principle of the UN. With the six official and working languages (Arabic, Chinese, English, French, Russian and Spanish) of the General Assembly and the Security Council, the six official and three working languages (English, French, and Spanish) of the Economic and Social Council, the two working languages (English and French) of the Secretariat, the range of languages used for information dissemination by the Department of Global Communications, and the work of linguists such as translators and interpreters, matters of language and relationships between different languages and their users touch all aspects of the work of the UN, both internally and externally. Moreover, both the United Nations Charter (Article 1) and the Universal Declaration of Human Rights (Article 2) affirm the right to non-discrimination based on language.

More specifically, the by-laws lay out the purpose and role of the committee

The purpose of the committee is to promote understanding of the importance of language, linguistic justice, and linguistic non-discrimination through enhanced NGO relations with, inter alia, the Office of the Coordinator for Multilingualism, the UN High Commissioner for Human Rights, the Department of Global Communications, UNESCO, the International Telecommunication Union, and other relevant UN Offices, and UN member states; and through improved communications among concerned NGOs in New York, Geneva, and Vienna.

The role of the Committee is to coordinate NGO activities so as to reinforce the efficacy of the United Nations system in the areas of language rights, language policies, and language practices, and to stress the importance of the linguistic dimension of all UN activities and programmes.

A first meeting of the Committee has been tentatively scheduled for December 7, at which the Coordinator for Multilingualism, Mr. Movses Abelian, Under-Secretary-General for General Assembly and Conference Management will brief the committee on the state of multilingualism at the UN. Additional speakers from UN entities and civil society will also be invited to represent a variety of perspectives.
Aims and Objectives:

The NGO Committee for Rare Diseases aims to bring greater political recognition of the challenges of persons living with a rare disease (PLWRD) at the global level.

Main objectives:

• To increase visibility of PLWRD within the United Nations System.

• To extend and share knowledge about PLWRD and their unmet needs.

• To connect NGOs interested in rare diseases and their partners within a global platform.

• To promote multi-stakeholder collaboration and actions for PLWRD at the global level.

• To align rare diseases as a global priority in public health, research, and medical and social care policies.

The goals of the NGO Committee for Rare Diseases are fully aligned with many of the 17 Sustainable Development Goals (SDGs), and support the UN’s vision to create a world where every single human can lead a dignified life and “no one is left behind”.

Leadership & Governance:

The NGO Committee for Rare Diseases was initiated by the Ågrenska Foundation and EURORDIS – Rare Diseases Europe and its inception as a Substantive Committee within CoNGO took place in October 2015 in New York. The formal inauguration of the Committee took place on the 11 November 2016 at the UN headquarters in New York, in cooperation with Rare Diseases International.

The governance of the Committee is now led by the current members of the Executive Board: Ågrenska, EURORDIS-Rare Diseases Europe, International Alliance of Patients’ Organizations,
International Alliance of Women, International Federation for Spina Bifida and Hydrocephalus, World Federation of Hemophilia, and Rare Diseases International (RDI), which represent all of their members within the Committee and are the expression of civil society speaking on behalf of PLWRD within ECOSOC and the UN system.

Officers

• Anders Olauson (Ågrenska) – Chair
• Yann Le Cam (EURORDIS-Rare Diseases Europe) – Vice-Chair
• Robert Hejdenberg (Ågrenska) – Secretary
• Durhane Wong-Rieger (Rare Diseases International) – Treasurer

Activities of the Committee:

A selection of notable activities and outcomes from the period 2018 to 2021:

• 13 June 2018 – Delivery of an oral statement at the United Nations Conference on Disability

The representative from the NGO Committee for Rare Diseases was among the few civil society representatives allowed to make a statement during the General Debate of the Conference. The statement called for the UN to ‘pay attention to the diversity within the community of people living with disability and ensure that PLWRD across all regions of the world are not in fact left behind’ in the implementation of the Convention on the Rights of Persons with Disabilities.

• 25 June 2018 – Official Statement at Human Rights Council highlighting the Human Rights of PLWRD

A statement was submitted to the 38th Session of the Human Rights Council endorsing the messages laid out in the NGO Committee for Rare Diseases publication ‘The ‘Right to Health’ in Rare Diseases’ (input to the OHCHR Report on the contributions of the right to health framework to the effective implementation and achievement of the health-related SDGs).

The Official Written Statement reinstated how several of the challenges faced by PLWRD intersect the main pillars of the “right to health” framework including Accessibility, Availability, Participation and Good Quality, meaning that rare diseases must be addressed as both a human rights and public health issue.

• 15 October 2018 – Report to UN General Assembly by UN Special Rapporteur on Rights of Persons with Disabilities calls for support of rare disease community

The report, presented to the Third Committee of the UNGA by Catalina Devandas, UN Special Rapporteur on the rights of persons with disabilities (PWD), highlighted that a “lack of accurate diagnosis and effective treatments for the majority of rare diseases represents a challenge worldwide” and called on states to “consider developing and implementing policies and practices targeting the most marginalized groups of persons with disabilities”, including PLWRD.
This was the outcome of advocacy efforts from the NGO Committee of Rare Diseases and its members including a contribution made to the report ahead of its publication, and attendance at the Expert Group Meeting on the right of PWD to the highest attainable standard of physical and mental health in Geneva, and the COSP on the CRPD in New York.

• 21 February 2019 – Rare Disease Day Policy Event at the United Nations (Second High-Level event of the NGO Committee for Rare Diseases)

The Second High-Level event of the NGO Committee for Rare Diseases was organised by Ågrenska, EURORDIS-Rare Diseases Europe and Rare Diseases International, and took place in the UN Headquarters in New York to mark the occasion of Rare Disease Day 2019.

The event was held under the patronage of HRH The Grand Duchess of Luxembourg, hosted by the Permanent Mission of Estonia to the United Nations and co-hosted by 14 Permanent Missions from: Belgium, Brazil, Cyprus, France, Japan, Kuwait, Luxembourg, Malta, Romania, Serbia, Spain, Sweden, Thailand, and the United Arab Emirates.

During the event, which hosted a long list of prominent speakers from the global rare disease community and the UN system, the NGO Committee for Rare Diseases launched a call for:

• The integration of rare diseases into the 2019 UN Political Declaration on Universal Health Coverage (UHC),

• A UN General Assembly Resolution on addressing the challenges of PLWRD. Full report on the event

• 15 May 2019 – OHCHR refers to rare diseases in report to ECOSOC on Universal Health Coverage

The United Nations Office of the High Commissioner for Human Rights (OHCHR) made reference to PLWRD within its annual report to the UN Economic and Social Council (ECOSOC). The 2019 report focused on the topic of UHC and looked at how the human rights framework can contribute to the conceptualization and implementation of UHC.

The NGO Committee for Rare Diseases has established an ongoing dialogue with the OHCHR since 2017 and contributed input to this report, which ensued in establishing PLWRD as one of the ‘groups in focus’ within the ‘Key human rights challenges to extending health coverage’. The report concluded that “the principle of non-discrimination applies to universal health coverage, and its protection is available for […] groups and populations that are usually excluded, such as […] persons living with rare diseases” and that “States should ensure, in particular, that the legal and policy framework addresses discrimination in access to health care and services, ensures effective access to medicines, therapies and technologies for all persons without discrimination, and protects the rights of persons living with rare diseases, […] including through the use of special measures where appropriate”.

• 23 May 2019 – Rare diseases are featured for the first time on the agenda of the World Health Assembly
Rare Diseases International (RDI), together with the NGO Committee for Rare Diseases, contributed towards formal and informal events which focused on the importance of including PLWRD to leave no one behind in Universal Health Coverage.

The formal side event, part of the official WHA agenda and sponsored by the Permanent Missions from the European Union, Romania and Kuwait, used rare diseases case-studies as an example to highlight the potential of digital health to achieve UHC. The event was co-sponsored by an additional nine Member States which demonstrated high level of interest and support.

The informal side event held at the Red Cross Museum served to present the rare disease community’s position on UHC, following the publication of RDI’s position paper published in April 2019, endorsed by the NGO Committee.

More information on events.

• 8 July 2019 – Rare diseases mentioned in the Human Rights Council Resolution on Access to medicines and vaccines

The NGO Committee for Rare Diseases worked with the OHCHR to include a mention of rare diseases in A/HRC/41/L.13 Human Rights Council Resolution on Access to medicines and vaccines in the context of the right of everyone to the enjoyment of the highest attainable standard of physical and mental health.

The Resolution recognises “the need to appropriately address challenges, gaps, market failures and opportunities regarding the research and development of health technologies, availability and affordability to treat, inter alia, rare and neglected diseases”.

• 23 September 2019 – UN Member States include rare diseases in Political Declaration on Universal Health Coverage

At a High-Level Meeting at the United Nations headquarters, UN Member States adopted a political declaration on UHC that included a mention of rare diseases. This marked a hugely significant milestone for the rare disease community, with rare diseases being included for the first time within a UN declaration adopted by all 193 Member States.

This inclusion is the result of years of coordinated advocacy work from a number of organisations and led by the NGO Committee for Rare Diseases and its members. At a political level, the inclusion of rare diseases alongside communicable and non-communicable diseases, impairments and disabilities, means PLWRD are no longer invisible to the international health policy agenda. At a practical level, the text also provides leverage for local stakeholders to call for national action to provide health services for PLWRD.

• 14 & 15 May 2020 – NGO Committee contributes to successful online European Conference on Rare Diseases (ECRD)
The 10th edition of the European Conference on Rare Diseases & Orphan Products 2020 took place exclusively online for the first time with an unprecedented record 1,500 participants from 57 countries and 100+ expert speakers.

The NGO Committee for Rare Diseases supported the conference as a full partner. Members of the NGO Committee board participated in the conference as session chairs and speakers, including Chair Mr. Anders Olauson, Vice-Chair Mr. Yann Le Cam, Secretary Mr. Robert Hejdenberg, and Treasurer Ms. Durhane Wong-Rieger.

An entire theme of the ECRD 2020 focused on international policy and looked at the human rights of PLWRD. It was a chance to discuss the paradigm shifts needed to ensure inclusion in society and make the UN principle to ‘leave no one behind’ a reality.

• 6 July 2020 – NGO Committee endorses statement on equity and protection of PLWRD in COVID-19 response and recovery

The statement, published by NGO Committee member Rare Diseases International (RDI), launched a call to Member States and other relevant stakeholders to eliminate the risk of exacerbating pre-existing inequalities, and protect PLWRD from being discriminated and becoming even more vulnerable in COVID-19 response and recovery strategies, as well as long-term health system restructuring plans.

In the statement, RDI highlighted the impacts of the pandemic on the rare disease community, the role that organisations representing PLWRD took on during the crisis, and a series of recommendations to ensure the protection of this vulnerable population.

• 4 March 2021 – Third High-Level Event of the NGO Committee to mark Rare Disease Day: Call for a UN Resolution on addressing the challenges of PLWRD and their families

The NGO Committee for Rare Diseases held its third High-Level Event, organised online by RDI and EURORDIS, to mark Rare Disease Day 2021 and launch a global call for the United Nations General Assembly to adopt a Resolution addressing the challenges of PLWRD and their families at its 76th Session.

Civil society partners presented their Key Asks for this resolution and presented a video of support to the cause of PLWRD at the UN. The High-Level Event counted with the interventions from UN Member States representatives from Brazil, Qatar, Spain, France, Thailand, and Japan. In addition, Nata Menabde, Executive Director at the WHO Office at the UN, and Todd Howland, Chief of the Development and Economic and Social Issues Branch at the OHCHR, issued statement of support.

• 7 July 2021 – Official Side-Event to the ECOSOC High-Level Political Forum (HLPF) co sponsored by the Core Group of Member States tabling the UN Resolution on PLWRD

The event was entitled ‘On the road towards COVID-19 recovery and delivery of the SDGs: Addressing the challenges of persons living with a rare disease as a sustainable development, human rights, and equity priority’. It was officially co-sponsored by Permanent Missions of
Spain, Brazil, and the State of Qatar to the UN – the Core Group of Member States promoting the UN Resolution – together with the NGO Committee for Rare Diseases, RDI and EURORDIS.

The online event was attended by over 300 participants from 61 countries across the globe and was opened by high-level representatives from the Core Group with a keynote address by Mr. Craig Mokhiber, Director of the New York Office of the OHCHR. Discussions revolved around how addressing the challenges faced by PLWRD advances the UN 2030 Agenda and the commitment to “Leave No One Behind.”

• 7 to 9 September 2021 – Organization of UN Regional Group Meetings on the UN Resolution on PLWRD and their families

Together with EURORDIS and RDI, the NGO Committee for Rare Diseases co-organized with the Core Group of Member States, six UN Regional Group meetings as well as one with the EU Delegation to the UN. These closed meetings were the opportunity for other Member States to hear the testimonies of the community of PLWRD on the value of a UN Resolution. It was also the opportunity for the Core Group to provide details on the informal negotiations that they were launching ahead of discussions at the Third Committee of the UNGA. These informal negotiations planned for the end of September and beginning of October, aimed at engaging positively other Member States and reach consensus on the UN Resolution.

Concluding 2021 and looking forward

The NGO Committee is working steadily towards its objectives for the rare disease community: Extending knowledge and visibility at the global level, as well as promoting collaborative initiatives and the prioritisation of rare diseases in research and policy.

Looking back on 2018-2021 we are pleased to conclude that our activities, including the two high-level events at the UN and online, and the events at the WHA, together with our contributions to different reports, in cooperation with the rare disease community at large, are making a difference to bringing the challenges of PLWRD into the global agenda.

In 2021, the NGO Committee for Rare Diseases is hopeful that the draft proposal for a UN Resolution on addressing the challenges of PLWRD and their families will be adopted by consensus at the UN General Assembly by December of this year.

The NGO Committee for Rare Diseases is also in the midst of preparations towards its Fourth High Level Event which will be organized at the World Expo in Dubai (United Arab Emirates) on the 28th February 2022, with the support of the Swedish government and its co-founders Ågrenska, Rare Diseases International and EURORDIS-Rare Diseases Europe. This event will be the opportunity to discuss how key global intergovernmental commitments, like the UN Political Declaration on UHC and the draft UN Resolution, are key achievements to raise awareness and visibility, and must trickle down to the regional and national levels. The all-day meeting will include multi-stakeholder panels exploring ways to increase international collaboration and synergies needed to make rare diseases a policy priority at all levels. In particular, it will focus on the African region, as it is increasingly emerging to the issue and fostering a favourable environment for the creation of pan-African networks in the field of rare diseases.
Moving forward the NGO Committee for Rare Diseases is therefore energized and motivated to continue building momentum, with events and policy contributions, extending our function as a platform for the global rare disease community, and contributing to giving voice to the 300 million people worldwide living with a rare disease.

Aims and Objectives of NGO CSW/NY:
Mission: NGO CSW/NY facilitates a platform for the voices and leadership of feminists and women’s rights organizations globally who lobby for their inclusion in the UN deliberations in pursuit of gender equality.

Vision: We envision a world without sexism, sexual violence, or discrimination against women and girls, where economic, political, and social policies encourage their empowerment and wellbeing.

NGO CSW/NY is a coalition of civil society organizations (CSOs) and individuals concerned with gender equality. Our main purpose is convening the global feminist and women’s movement and ensuring their engagement at the United Nations, especially during the annual Commission on the Status of Women (CSW).

Our primary project is organizing and hosting the annual NGO CSW Forum, which runs parallel to the CSW. This provides civil society the opportunity to engage in the CSW processes and sessions without ECOSOC-accreditation or a UN grounds pass.

Membership of NGO CSW/NY:

We currently have over 350 paid members including individuals and organizations. The amount of the annual general membership fee is $50. We also have an annual Youth Leaders & Young Professionals membership available for a fee of $25.

Significant Activities of NGO CSW/NY:

NGO CSW Forum: NGO CSW/NY’s main project is the annual NGO CSW Forum. The NGO CSW Forum is the civil society side of the UN Commission on the Status of Women (CSW). The Forum runs parallel to the official CSW session taking place at the UN Headquarters. This provides civil society the opportunity to engage in the processes and CSW sessions without ECOSOC-accreditation or a UN grounds pass.

Over the two weeks of the UN CSW, NGO CSW/NY organizes hundreds of events that inform, engage and inspire grassroots efforts and advocacy needed to empower women and girls. Some of the events that we host are Consultation Day, Orientation & Advocacy Training, Regional Caucuses, Conversation Circles, and Parallel Events organized by CSOs and NGOs around the globe.

Last year was our first 100% virtual NGO CSW Forum, given the context of the COVID-19 global pandemic. Over 27,000 advocates joined the 700+ events during the Forum, making it one of the largest gatherings of the women’s movement and feminist civil society! To be able to virtually gather those who would be unable to attend in-person and produce these large numbers is an accomplishment in itself. The Forum provided a space for individuals and global organizations to share their work, network, and have their voices heard within the global, UN context. As a result, participants were also able to discuss the most pressing gender equality issues faced by civil society, learn about hundreds of organizations around the world, as well as participate in and learn about advocacy within the UN system.

For more information on the NGO CSW65 Virtual Forum, read the report here.
Advocacy:
Throughout the year, as well as during the NGO CSW Forum, we do advocacy work for feminist civil society and women’s rights movements’ inclusion at the UN and within the CSW processes. We host an Orientation & Advocacy Training session during CSW and have advocacy resources available to our community. We also have an Advocacy Research Group (ARG) who provides solicited and researched recommendations leading up to and during the CSW Outcome Document negotiations. The ARG researches issues raised in the CSW Priority Theme with input from NGO CSWs in the Regions and global civil society.

This year, we are especially concerned with advocacy for ensuring that CSW is effective, productive, and inclusive of civil society through the review of the CSW Methods of Work.

Information Sharing and Education:
Each month, we host a Monthly Meeting with a panel discussion about a topic related to gender equality to educate and engage our community about existent and emerging issues within the global feminist and women’s rights movement. This year, all of our Monthly Meetings will address climate change in some way to align with the CSW priority theme. For the time being, all Monthly Meetings are held virtually via Zoom.

We also have a mailing list of around 40,000 subscribers. We often send out information about relevant events, sign-on statements, and updates to our listserv via Mailchimp. We also send out monthly newsletters that provide updates on everything NGO CSW/NY is working on, as well as select information from other organizations/groups.

Youth Leaders & Young Professionals (YLYPs):
The mission of our Youth Leaders & Young Professionals program (YLYPs) is to amplify the voices of youth leaders and young professionals, providing a platform for their perspectives on gender equality and channels for their advocacy at the United Nations. We convene young people to consult and contribute to the advancement of the international feminist movement.

There are currently over 2,400 people in our global YLYP community! Some of the notable YLYP activities are a mentorship program, the NGO CSW65 Young Feminist Awards, and a Youth Preparation Series for NGO CSW65. Read more about the YLYPs and what they do here.

Civil Society Convener for the Generation Equality Forum (GEF):
To convene, mobilize, and consult with civil society, UN Women tasked NGO CSW/NY as convener of global civil society for the Generation Equality Forum. Our first action as convener was to form the Advisory Working Group (AWG), a group of over 600 global civil society members who were instrumental in ensuring that all voices were heard and represented in the GEF process. The AWG consulted the Civil Society Advisory Group to the Core Group (CSAG) to make sure that they were representing the needs and priorities of global civil society. AWG members were encouraged to provide input into GEF and Beijing+25 processes.
We were also happy to help facilitate the work of the Feminist and Women’s Movement Action Plan (fwMAP) which engaged around 6,000 members of global civil society.

Out of the AWG, 5 volunteers formed a selection committee to choose 21 members of the CSAG through a civil society-led process. Throughout the two years of the GEF preparation process, NGO CSW/NY, represented by our Chair, played an important role in the involvement and engagement of global civil society in the GEF.

UN Entities that NGO CSW/NY Consults and Works With:

We work closely with UN Women to update each other on the CSW and NGO CSW Forum and work together to ensure that civil society is meaningfully involved in the CSW processes. UN Women representatives often update and provide information to our community during Monthly Meetings and the NGO CSW Forum.

Greatest Achievements of NGO CSW/NY:

The greatest achievement of NGO CSW/NY was the NGO CSW65 Virtual Forum. We were able to convene over 27,000 participants, host 700+ events, and create a sense of community that has been largely lost since having to work virtually during the COVID-19 global pandemic. Read all about the virtual Forum to learn about its planning, outcomes, and aspects.

Another significant achievement of NGO CSW/NY was our role as civil society convener for the Generation Equality Forum. As the host of the NGO CSW Forum, convening thousands of global activists annually, we are proud that UN Women tasked us with convening civil society organizations and activists around the world to come together for a transformative, multi-stakeholder campaign and the culminating events. While the GEF process was of course not perfect and had its challenges, it was ultimately a huge success that resulted in $40 billion in commitments for gender equality. NGO CSW/NY is proud and grateful to have played a part in this success and the exciting outcomes.

Documents Produced by NGO CSW/NY:

NGO CSW65 Virtual Forum Report: This report outlines the planning, implementation, and outcomes of the NGO CSW65 Virtual Forum, as well as how we plan to improve future Forums.

Civil Society Zero Draft Recommendations: Prepared by our Advocacy Research Group (ARG), this document has recommendations for the CSW65 Agreed Conclusions document. These recommendations are based on several months of collaborative research and outreach by members of all the NGO CSWs in the Regions.

Key Critical Issues One-Pagers: The ARG also compiled one-pagers on the critical issues identified in the UN Women Report of the Expert Group on the CSW65 priority theme. Six key critical issues and actions for advocacy were identified, with input from all regions, and researched in the hope that advocates participating in CSW65 might use these one-pagers as tools for their own interactions.

- Transformational change
- Decision making
- Informal spaces
Representative institutions  Social norms  Violence

Youth Perspectives on Key Issues Affecting Women: The document is a summary of the results of a Youth Survey on the six critical issues above.

Virtual Safety Guidelines: This document lists the set of virtual safety guidelines that we follow and uphold throughout all of our virtual events, meetings, and spaces.

Advocacy Training Guide: Our Advocacy Training guide for women’s human rights and feminist activists at the UN helps build the capacity of NGOs and women’s human rights activists to advocate for the rights and empowerment of women and girls. The guide is available in 5 languages.

Significant activities of the Committee:

We continue to be passionately dedicated to working in partnership with stakeholders from all sectors to support the success of UN 17 Sustainable Development Goals and the UN 2030 Sustainable Development Agenda. The UN Secretary-General released his recent “Our Common Agenda” report for the UN76th General Assembly sharing the importance following the global impact of the pandemic for the UN to make an effort to become more inclusive of CSOs and other stakeholders.

We continue to collaborate with our civil society partners to develop meetings and this year webinars with topics and activities that focus on building back better and how the SDGs are our best road map to overcome this crisis for all communities. We have continued to hold monthly
webinars and sometimes twice-monthly sessions on important topics related to the pandemic and the SDGs.

We have been a Co-Sponsor with other groups supporting their webinars. Please kindly check under our website: www.ngocsd-ny.org for more information and details under our NGOCSD-NY TEAM, plus our meetings and events to see our Executive Board members and the lists of our monthly agendas and activities.

The purpose of the NGO Committee on Sustainable Development-NY is to monitor and influence the implementation of the commitments and agreements adopted by the United Nations that pertain to sustainable development as defined by the UN Conference on Environment and Development, the 1992 Rio Earth Summit, the MDGs, the SDGs, Rio+20 and Post-2015 Agenda for the Sustainable Development Agenda. We seek to be knowledgeable about sustainable development issues under discussion or expected to be discussed by the United Nations for the High Level Political Forum. We focus attention and promote the programs of the United Nations on 17 Sustainable Development Goals for the success of the 2030 Sustainable Development Agenda, working closely with relevant UN commissions and agencies such as the United Nations Environment Programme and the Centre for Human Settlements (UN-Habitat), UNDP, UNDESA, UN Women, UNFPA, UNDI and UNODA. We promote and facilitate the exchange of knowledge and the dissemination of information on sustainable development issues within the NGO community and to the general public to raise awareness toward an action agenda. We work with Ambassadors and Permanent Missions to the United Nations, members of civil society, academia, women, youth, people with disabilities, indigenous leaders, members of the private sector and sustainable development experts in energy, water, climate change, and infrastructure to bring about partnerships and collaborations that foster innovative solutions for sustainable development, social impact initiatives and gender equality issues.

**UN Entities:**

The NGO Committee on Sustainable Development-NY is officially associated with the United Nations Department of Global Communications. We are a tax-exempt 501(c)(3) not-for-profit organization. All donations are tax-deductible.

We look forward to supporting and collaborating with our CoNGO colleagues throughout 2022 and beyond to create more opportunities for CSO partnerships with all stakeholders both at the United Nations and globally.

REPORT OF
THE NGO COMMITTEE ON AGEING / VIENNA

Committee Leadership:

· Chair - Jacqueline Stark (IFA)
· Vice-Chair - Shantu Watt (INPEA)
· Vice-Chair – Dirk Jarré (EURAG)
· Secretary – Rita Assogna (IFBPW)
· Vice-Secretary – Christine Peer (SI)
· Treasurer - Ceja Gregor-Hu (IIW)
· Vice-Treasurer – Dr. Gertraud Ribitsch (ZONTA)

The NGO CoA in Vienna resumed its work at a first meeting on February 1, 2021. Due to the lockdown it was not possible to meet in the UN in Vienna. This and the following meetings on a monthly basis through June and then again starting in September and October were held online. The agendas and the minutes of the meetings accompany this summary. At each meeting recurrent topics including the following:

a. Discussion of ways to move forward regarding the three SDGs previously selected by the committee to follow up on;

b. Discussion of the plans for the UNIDOP event 2021 and the Decade of Healthy Ageing;
c. Decision on topics/issues for smaller groups of members of the committee to work on;

d. Actualization of our website

e. Report on relevant events members of the committee participated in (e.g., UNECE Workshop and other webinars)

The topics selected for group participation include:

1. Digitalization
2. Human Rights
3. Intergenerational perspectives
4. Cultural perspectives

It was proposed that the groups meet separately and each would give a report on their discussions. To date not much has been undertaken by each group.

Preparations were made on the topics and possible speakers for the UN IDOP event to be held on October 1, 2021. Two topics were decided on: Issues related to ethics and crime, i.e. cybercrime with regard to older persons. Dr. Thomas Frühwald and Dr. Inge Geyer were asked to recruit speakers for those topics. Up until October 1st much time was spent taking care of the preparations in cooperation with the International Federation on Ageing, which had agreed to host the event.

For the meeting on March 1st Dr. Thomas Frühwald gave a talk on: ‘Frailty- a multidimensional geriatric syndrome: Normal ageing or disease?’

At the May 3rd meeting Mag. Karin Eder (Leitung des Österreichischen Instituts für Validation, Advanced Practice Nurse (Management & Education) gave a talk on: ‘#demenzraum - An Easy-Access Online Initiative to Inform Carers and People with Dementia’.

Univ.Prof. Dr. Stefanie Auer (Danube University Krems, Faculty of Health and Medicine) gave a talk on dementia at the meeting on: "Can dementia be prevented?" at the June 7th meeting. Dirk Jaärré gave a report on the EC Green Paper on Ageing: "Fostering solidarity and responsibility between generations" at the same meeting.

At the April 12th 2021 meeting two colleagues from the Social Ministry attended the meeting. Mag. Verena Schriebl (Social Ministry...) who will be taking over the position of Dr. Erika Winkler (who retired in May 2021) introduced herself and gave a report on the 4th UNECE-Implementation-Review of the Madrid International Plan of Action. She expressed her interest in working with our committee as her colleague Dr. Winkler had done over the years.
Mag. Christoph Angster (Social Ministry...) followed with a report on the Open-Ended Working Group on Ageing Meeting (March 29-April1, 2021) and discussed issues on how we could work together in the future.

The online UN IDOP Vienna event on October 1st from 13:30 (CET) to 15:15 (CET) was very interesting. The speakers and titles included (enclosed is the program):

Prof. Barbara Prainsack (University of Vienna): *Ageing in the digital world - what is the role of solidarity?*

Prof. Ulrich Körtner (University of Vienna): *Ethical Issues of Digitalization and New Technologies*

Marie-Line Billaudaz (UNODC Cybercrime and Anti-Money-Laundering Section): *How can older people protect themselves from cybercriminals while enjoying the most of digital technologies?*

Prof. Nancy Helm-Estabrooks (Brewer-Smith Distinguished Professor Emerita in the Department of Communication Sciences and Disorders at Western Carolina University): *Challenges for people with Acquired language Disorder in an increasingly digitized social world.*

The event was successful. For the rest of 2021 other talks are planned and preparations for the election of new board members.

Work Plan and Budget 2021

In line with the Strategic Plan 2019-2021, approved by the VNGOC General Assembly on 19th of March 2019, the VNGOC Board will strive to:

▶ Provide resources and support to develop NGO capacity to engage the relevant UN bodies on drug policy and related matters.

▶ Foster new, and utilise existing, opportunities for NGO engagement with relevant UN bodies on drug policy and related matters.

▶ Advocate for NGO inclusion in international debates concerning the implementation, impact and development of drug policies.

▶ Present a global, balanced NGO voice and/or position on drug policy at strategic national, regional and international events.

▶ Effective and efficient management and promotion of the Committee

In 2021, the VNGOC Board will continue work to ensure a better regional representation and participation through ad-hoc working groups on regional engagement in Asia, Africa and Latin America.

VNGOC will continue to support and facilitate civil society inputs and engagement at the CND, the INCB Civil Society Hearing and other relevant UN meetings and fora. Finally it will work to further promote the NGO Marketplace platform as a valuable tool for all NGOs.

Social Media

In order to effectively disseminate updates and information about CND meetings, UNODC & VNGOC activities, speaking opportunities and other calls for inputs the VNGOC maintains a website, social media presence on Facebook and Twitter, and sends out regular emails to the membership and a broader audience.

Aims and Objectives of the UN NGO Committee on Peace:

For the period of this board 2018/2020 and 2020/2022 we have decided to focus on:

- Disarmament and esp. nuclear disarmament, but acknowledging the fact, that this is not enough to support peace in the world, we also put our focus on
- Global peace education and its promotion.

Global peace education seems to be an urgent need, if not a necessity in our time. We wanted to hear experts speak about it, but also supported its implementation.
The CoP wanted Global Peace Education to be part of the normal schooling system. We heard Experts at our meetings and wrote letters to the department of education. Our efforts were not in vain: We got the rewarding news from the ministry for education, that Peace Education will be part of the normal schooling system for all children from 2023/24 onwards.

**Membership of the Committee:**

The UN NGO Committee on Peace Vienna has 35 NGO members, all in good standing.

The annual membership fee of the CoP is € 27.— per year per NGO.

**Significant Activities of the Committee:**

Conform with the Standing rules of the CoP we had the following activities:

- Our regular programming ran from September to September in the UN City Vienna, but during Covid times per zoom meetings. Meetings attracted between 20-40 representatives of our member NGOs.

- We offer a platform for our members of the CoP for contact and networking and latest information from experts about the issues we focus on.

We held contact with the Department of Foreign Affairs and the Department of Education. We also wanted information, how the ministries of Austria implement the Resolutions of the UN. Both ministries answered our questions and gave information.

UN Entities the Committee consult, work with and involve in its work:

- With UNODA we have meetings and common events like the “International Day for the total Elimination of Nuclear Weapons”
- UN Information Service Vienna, like for
- The interview for the ORF, the National TV station, of the Chair of the CoP on the premises of the Vienna International Center about UN Resolutions on Peace Education
- Efforts to have the film “Wars don’t end” shown at the UN Vienna
- Establish contacts with the UN Liaison Office for Peace and Security.
- The desired contact and cooperation with UNESCO Paris unfortunately did not work out. The CoP wanted to know what to expect from the planned future developments of UNESCO, as the Agenda 2030 was published already in 2015, 6 years ago, to inform member NGOs about, but got no valid information.

And we are in contact with UN Protocol, they organize rooms for the meetings of the CoP at the UN premises VIC.

Greatest achievement of the UN NGO Committee on Peace Vienna:

- To receive the news that the efforts of the CoP member NGOs working for the implementation of Peace and Citizenship Education in all schools for all children were successful, and also the efforts of the Committee as such, to have these educations in Austrian schools from 2023/24 onwards.
- Planned are side events organized by the CoP and its NGOs at the coming TPNW Conference in Vienna in 2022.

The CoP Vienna has contributed to the Oral statement CSW63 2019.

The CoP Vienna is not present in social media.

May I present my personal experience as chair of the CoP Vienna in supporting the implantation of Global Peace Education for all pupils in Austria:
It seems to me that the UN Resolutions are much more advanced than the situation in the country, f.e. Austria and that there is at the moment a gap between the work of the UN and the people, f.e. of Austria.

· 2001 to 2010 was the “Decade for Peace” proclaimed by the UN. This decade and its message for Global peace education went by almost completely unnoticed by the public in Austria. (It could be checked by the UN, if the situation is the same in other countries, or not.)

· 2013 to 2022, and we are still in it, is the “Decade for the Rapprochement of Cultures.” This decade and its message was also not in the public consciousness. (Also this could be checked in other countries by the UN.)

Both these “Decades” are very important and helpful for the implementation of the Agenda 2030: The UN have proclaimed first Global Peace education, so that the children learn f.e. to solve conflicts peacefully. Then the UN proclaimed that the different cultures should meet and get to know each other. For Europe this means Christians and Muslims should get acquainted. So they could be steps to better realize the goals of the Agenda 2030.

· For 2030 is the Agenda 2030 with its pictograms. They are well designed and very easy to remember. Some schools and Public offices or administrations have them already pinned up. So there is a certain awareness already now for Agenda 2030 and its goals.

Departments have been asked to inform on how they want to realize the Agenda 2030 and have produced their statements. The Austrian government has taken steps to implement the Agenda 2030 in due time. Now the UN asks for “Global citizenship education” and the implementation of the idea that the world belongs to all of us. But can and do the people (of Austria and other European countries) carry this jointly, without the training of the two “Decades”?

What else was done to create and raise awareness for peace?

· A contact was established between the Heeresgeschichtliche Museum (HGM, Museum of History of Armies) Wien and the CoP: that a room or (permanent) exhibition will also remind of the importance of peace.

· The CoP wrote a letter reminding the 21.9.2020, International Peace Day, to the departments for Foreign Affairs BMEA and got responses from the BMEA, explaining what Austria does to fulfill the aims of the UN – impressingly much!

· Members of NGOs of the CoP formed together an Initiative “Dialogue.Empathy.Action. – Contributions to Peace” to promote the UNESCO Goal of Global Citizenship Education and the SDG 16, Peace, to emphasize the message: if we want to achieve durable Peace we also have to use a non-violent, peaceful language, in public as well as private areas. An Article of the chair of the CoP was printed in the governmental newspaper “Wiener Zeitung.”

**Significant activities of the Committee:**

a. Activities initiated

Membership prioritised in 2018 the SDGs, which to follow up in Committee sessions. Goal 11 and 13 were highest ranking. The Committee started following up with Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable; followed by Climate change and environmental crime lectures and side events, related to the topic of the sessions.

The pandemic shaped the UN survey on long term priorities – the first results of March 2020 were ranking climate change – poverty – government corruption – conflict/violence, by end of 2020 by prioritising Health – access to basic services – global solidarity – inclusive economy.

So the Committee combined the survey and the recent initiatives to an activity profile addressing emerging issues and initiatives towards a safe, secure and sustainable environment (through the lens of Vienna based UN agencies) by linking Criminal Justice and the SDGs in a new way.

**Actions set in 2021:**

- follow up of the initiatives of 2020: address root causes of environmental disasters, of climate change etc. by promoting the relevant conventions through
  
  - Side event during CCPCJ (combining thematic themes and environment)

- Criteria for sustainable cities were continued to be discussed by participating in a series of webinars Change the World, organized by the Alliance of NGOs on Crime Prevention and Criminal Justice:
  http://crimealliance.org/what-we-do/change-the-world

- Side event at CCPCJ May 2021: Environmental Crimes as root causes of (forced) migration:

Documents, including statements, you have produced as a Committee (give title and a short description)

- Statement for 14th Crime Congress in Kyoto, Japan, March 2021 Advancing Crime Prevention, Criminal Justice and the Rule of Law: towards the Achievement of the 2030 Agenda

- Side event at CCPCJ 30th session:
  Environmental factors as an important trigger for migration
  Reconsidering the definition of smuggling migrants in the context of (transnational)
environmental disasters and hazardous legacies

Environmental factors influence migration in important ways, shaped by local economic, sociopolitical and cultural conditions. The root causes of environmental migration are often deeply intertwined and closely connected to sustainable development issues. Experts will present actual research data and share experience at the grass roots level, followed by a discussion on understanding the links between environmental change and migration, which disproportionately affect vulnerable groups, in particular women and girls.
