

PATRICK SCAUFLAIRE

Since September 1, 2020, Patrick Scaufaire has been President-Rector of the Catholic University of Lille (University and Multidisciplinary Federation of Lille) and, since 2021, President of the UDESCA (Union of Catholic Higher Education Institutions).

Scaufaire graduated from the Ecole Polytechnique in 1984 and the Ecole des Mines de Paris (Process Engineering option) in 1986. He started his career with the Solvay group, where he held various positions in Belgium, Brazil and Moselle. In 2001, he joined the BP Chemicals group in Brussels and, in 2003, became Director of Research and Technology Europe at BP Chemicals' headquarters in London. Patrick Scaufaire chose a more social orientation by joining the Apprentis d'Auteuil Foundation in 2005.

In 2006, Scaufaire was appointed Deputy Managing Director for Facilities and Projects. In 2015, he took over the management of the ICAM (Institut Catholique des Arts et Métiers) in Lille, a member of the Université Catholique de Lille. He completed his Executive MBA at HEC in 2016.

Patrick Scaufaire holds a Bachelor's degree in theology (equivalent to a Master's degree) from the Institut Catholique de Paris and has been a permanent deacon of the Catholic Church since 2002. He advises an EDC team (Entrepreneurs et Dirigeants Chrétiens). He was a member of the Board of Directors of the ACSC (Association des Cités du Secours Catholique) and of the UNIOPSS (Union nationale interfédérale des oeuvres et organismes privés non lucratifs sanitaires et sociaux).

MICHEL SALOFF COSTE

Blog: <http://michelsaloffcoste.blogspot.fr>

Michel Saloff-Coste is an international integral and global futurist, researcher, business advisor and entrepreneur working with individuals, corporations and governments to foster “fast insights into alternative futures.” He is a respected analyst and keynote speaker and has addressed many of the most important companies in the world, raising global future issues and creating awareness. As well as being a skilled facilitator, he delivers engaging, transformational, inspirational speeches and workshops.

Operating professionally in Europe, America and Asia, Michel has a broad experience in transition management, organizational culture, consumer behavior, business development and applied futures studies. He handles a broad range of topics within the realm of futures studies and innovation in specific sectors and industries, such as blockchain, artificial intelligence and robotics.

In the field of technology, Michel explores new uses and their significance for society and modern living. He likes to imagine the future with innovative and creative figures in various fields and industries. He knows how to translate those strategic insights into leading sustainable organizations and ecosystems.

Michel's role as a consultant in management strategy and communication inspired him to carry out more fundamental research on alternative futures. He even went as far as directing a multidisciplinary workshop on societal change, from 1985 to 1987, at the Ministry of Research in France. Michel used his research to write popular books and numerous papers on leadership, the 21st century and the information society. Among his outstanding achievements is the founding of the Club of Budapest in France, which is an international non-profit organization dedicated to encouraging people to discuss complex global issues. In 1991 he joined the Bossard Consulting Group Capgemini as a senior consultant and research director. Michel then went on to create his own research and consultancy firm, MSC, between 1993 and 2005, dealing with future studies, management, strategy, communication and global governance. At the same time, he taught vanguard management at HEC Paris since 1990. In 2011 he became head for R&D and International development of In Principo, an avant-garde Consulting firm specializing in innovation and co-creation. In 2012 he founded Design me a planet, an NGO dedicated to researching solutions for global issues on a planetary level and in the long term. In 2013 he became International Development Associate at Copenhagen Institute for Futures Studies; in September 2014, he became Executive Director at Future Innovation Institute at Lille Catholic University. In 2018, he became Future Studies Director at Lille Catholic University.

He always dedicated some of his free time to his talent as a contemporary artist. Michel has explored a wide variety of mediums: painting, photography, video and music. His work has been exhibited and collected by many private galleries, individuals, and leading art institutions such as the Museum of Modern Art in Paris and Centre George Pompidou.

The main focus of Michel Saloff-Coste's research and the subject matter of many of his books is on the paradigm shift within the information society that he defines as a 'Creation-Communication Society.' He defines the evolution of civilization in four waves: 'hunting & gathering,' 'agriculture & breeding,' 'industry & commerce,' and 'creation & communication.' Saloff-Coste further developed his framework with Carine Dartiguepeyrou, and together they outlined ten long-term visions of the future called 'horizons.' Their collaborative work was published in a co-authored book, "Les Horizons du Futur."

These days Michel's passions include the research of:

- The major tendencies that transform the development of our civilization at a planetary level .
- The changes needed in countries and companies in terms of culture, management, system and structure.
- How economic, social and ecological development can be matched to make sense for the future of mankind.
- The impact of artificial intelligence on education and new start-up project in this field.

His personal aspiration is to help catalyze the emerging new civilization, co-create a world-sustainable business model and bring beauty, verity and ethics for a better world. As an integral activist, he studies and promotes the political development of eco-villages and eco-towns based on collective systemic ecological intelligence and creation.

Michel Saloff Coste worked with remarkable People such as Ervin Laszlo, Gilles Deleuze, Andy Warhol, Thierry Gaudin, Phillipe Starck, Karl Lagerfeld, Jacques Delord, as well as some of the most daring leading breakthrough organizations such as 3Suisse Apple Bel Bonduelle CDC Décatathlon Edf ESSEC France Télécom HEC Peugeot PPR Rand Reebok Kompass L'oréal Science Po Sodexho Ministère de la Recherche Commission Européen.

Author of numerous bestseller books, Michel Saloff Coste is regularly interviewed in press, radio and television.
